There are children alive who will see, or at all events may see, "the North American Republic" with a population of 200,000,000; and the idea of incurring the enmity of such a power is as appalling as the idea of fighting Russia would be, say, to Italy or Spain. America could be met only by a confederation of Europe, which, without some great change of circumstances, would be impossible, or possible only if all Europe felt it to be dangerous to put up with the treatment one power was receiving.—London Spectator.

Meeting of Property Owners on Widening—A Committee appointed.

At 11 o'clock this morning a meeting of residents and property owners on Beretania street was held at the Chamber of Commerce room, Mr. C. M. Cooke in the chair. There were present Messrs. C. O. Berger, C. P. Iaukea, H. A. Widemann, E. C. Rowe, T. R. Lucas, W. Maertens, G. E. Boardman, G. P. Castle, E. C. Damon, J. G. Rothwell, W. Rowland, W. C. Roe, and T. Rosewarne. His Excellency L. A. Thurston, Minister of Interior, also attended.

The chairman called the meeting to order and explained that they had met with reference to the widening of Beretania street and asked for exchange of views or the appointment of a committee.

Mr. T. R. Lucas moved that a committee of three be appointed to call on all the property owners to get their consent to widen the street ten feet on either side from Punchbowl to Punahou, and in case all did not consent the committee be authorized to draw up a petition to be presented to the Minister of the Interior for the appointment of a jury.

His Ex. Mr. Thurston said that a committee called on him a short time ago with regard to the matter of widening the street. He stated that the expense would be so great that the appropriation would not stand it. They made proposals to give land the whole length from Punchbowl to Punahou. He told them that if the property owners would give ten feet on either side, the Government would put the fences back, widen and grade the street. According to the plan laid before the meeting about three-quarters had been provided for.

The fence in front of Mr. Schmidt's residence stood out anyway ten feet further into the road than it should, and would have to be moved that distance back at all events. On the other side of the road, between Punchbowl and Alapai streets, if ten feet were given up it would cut off some of the verandahs of the Portuguese houses and some of the Armory. It was an important question and should be brought to a head as soon as possible, so that the Government would know what to do.

Mr. Rosewarne said it would be doing an injustice to himself and family to give up 10 feet of his property. He would not consent to give it up to the Government for nothing or for any individual or political party. He looked upon this widening as for the benefit of a few individuals, and he did not propose to have his substantially built fence moved back.

Mr. Lucas thought the last speaker was a little off on this racket; it was not for any individual or political party. He believed in having good and wide roads. The widening would improve Mr. Rosewarne's property as it would that of others.

Mr. G. P. Castle said he resided above Beretania street and his property had been increased in value by having a good wide road for which he thanked the Government.

Mr. Roe was willing to give up 10 feet, for he believed the intended improvements would make a splendid road.

Mr. Cooke spoke of the peculiarity of the crossing at the corner of Punchbowl and Beretania streets, from Mr. West's to the Armory.

Mr. Rowland would be willing to do anything to get rid of the Mollili dust.

Mr. Rowe would not give up his land if his neighbor was paid for his.

Mr. Rothwell, on behalf of Mr. Way, was willing to give his land if all the others did.

Mr. Widemann said the land along the street would be worth much more with these improvements carried out. Whoever had land to give should give it for the public and his own interest.

Mr. Lucas' motion was then put and carried, and the chair appointed the following committee: T. R. Lucas, C. O. Berger and E. C. Damon.

The meeting then adjourned subject to the call of the Committee.
